Makati, Philippines **http://linkedin.com/in/sherylane-aglubat-9a4554218**

Objective

Results-driven Front-End Developer with 4 years of experience designing, developing, and optimizing responsive web applications. Skilled in modern frameworks including Angular, with a strong foundation in HTML, CSS, JavaScript, and RESTful API integration. Adept at collaborating with cross-functional teams, solving complex problems, and delivering user-focused solutions that meet business objectives. Seeking to contribute technical expertise and a commitment to quality in a dynamic development environment.

Skills & Abilities

Web Development: Angular, AEM, WordPress, HTML5/CSS3, JavaScript, TypeScript, Twig, Bootstrap/Tailwind CSS, SCSS/SASS/LESS

Dashboard Design: Experience organizing charts, building dynamic tables with filtering, sorting, search, dropdowns, cards, and responsive layouts

Data Handling: RESTful API integration, data binding

Version Control & Tools: Git, Bitbucket, GitHub, npm, Maven, Jenkins

Testing & Quality: Unit testing with Jasmin/Karma, debugging, code reviews

Project Management: JIRA, ServiceNow, Confluence
Soft Skills: Team collaboration, problem-solving, adaptability

Experience

Clark Outsourcing
Front End Web Developer
December 2025 – Present

- Develop and maintain responsive websites using HTML, SCSS, JavaScript, and modern front-end practices.
- Convert design mockups and requirements into functional, user-friendly web pages.
- Customize and manage website theme/skins to meet client and business needs.
- Maintain and support multiple website simultaneously, ensuring performance, consistency, and uptime.
- Implement SCSS architecture for cleaner, reusable, and scalable stylesheets.

- Perform bug fixes, updates, and enhancements on existing websites.
- Ensure cross-browser and cross-device compatibility.
- Collaborate with designers, stakeholders, and team members to implement requested features and revisions.

Manulife IT Delivery Center Asia Inc.
Associate Front-End Software Engineer
June 2022 – July 2025

- Developed and maintained interactive dashboards in Angular featuring charts (Highcharts with customized tooltips), data tables with filters/sorting/search, and responsive cards.
- Integrated RESTful APIs to enable real time, data-driven functionality in dashboards and other components.
- Designed and implemented Angular components and modules applying best practices in change detection and responsive design.
- Built reusable UI components in both AEM (HTL/Sightly, Sling Models) and Angular, improving development efficiency and maintaining consistent design across applications.
- Styled applications using SCSS and LESS, ensuring modular, maintainable, and scalable front-end design systems.
- Conducted code reviews to ensure adherence to coding standards and maintainability.
- Collaborated with cross-functional teams to translate business requirements into scalable technical solutions.

Manulife Business Processing Services
Associate Front-End Software Engineer
November 2021 – June 2022

- Produced, maintained and modified websites and user interfaces.
- Fixed any website issues or bugs that arise.
- Worked with clients to develop the overall look and design of website.

Education

University of Makati – Bachelor of Science in Computer Science Major in Application Development

June 2017 – March 2021
